

7th International Society for Industrial Ecology – Asia Pacific Conference
15th Asia Pacific Roundtable for Sustainable Consumption and Production

BE Resort Mactan Hotel, Cebu, The Philippines [<https://beresortmactan.com/>] (Feb 22-26, 2021)

Theme: Science-Policy Interface towards SDG 12 (SCP)

<http://aprscp.net/2021-aprscp-isie.html> [updated on 2020-06-01]

Call for Papers

The integrated event of the 7th ISIE-AP7 and APRSCP15 will be a unique combination and rare opportunity to develop the science-policy interface in Asia Pacific with an emphasis on sustainability. The event will showcase Asia Pacific talent demonstrating up-to-date scientific knowledge and appropriate policy options for our region through an engaging interactive dialogue among scientists and government officials under one roof.

ISIE was founded in 2001 in Leiden, with “Science of Sustainability” as its core interest; while the ISIE-AP events have been organized by the active Asian members to satisfy our regional dynamism. The APRSCP was founded in 1997, with original support from international aid organizations including UNEP and UNIDO. The roundtable has evolved via two major transformations reflecting major developments in the Asia Pacific; (1) from cleaner production (CP) to SCP/RECP & the Circular Economy; and (2) from CP project implementation to SCP policy and on to the science-policy interface.

The event will facilitate participation of scientists and national governments / LGUs to encourage them to work hand-in-hand in improving the regional SDG roadmap based on scientific debate.

Conference Chair	Important / Proposed Schedule	Confirmed presenters
(Anthony) Shun Fung Chiu University Fellow & Professor De La Salle University, Manila Secretary, ISIE (2010-2014) President, APRSCP (2009-2011) Committee officers: see web	Abstract Sep 30, 2020 Release of Acceptance Oct 15, 2020 Conference Proper Feb 22-26, 2021 Registration Fee (see web) \$380 – \$750 Email 2021CEBU@gmail.com WeChat anthonyc0235 Web aprscp.net/2021-aprscp-isie.html	Academics and researchers, UNIDO, UNEP, UN ESCAP, ADB, GIZ, IRP, NCPC, MOEJ, EU SWITCH, OECD, S16, Future Earth

International Partners

United Nations agencies

Supporting Entities & Partners

De La Salle University, Manila
DENR, Rep of the Philippines
Journal of Cleaner Production

Potential National Supporting Agencies (to be confirmed)

Republic of the Philippines, National Economic Development Authority
National Academy of Science & Tech

Tentative topics of interest:

<p>1. Macro-issues SDG Circular economy Resource efficient and cleaner production Sustainable consumption and production Urbanization and Regional Development</p> <p>2. Tools and Programs Sustainable public procurement & LCA Product-service system Sustainable lifestyle Sustainable food systems Inclusive & sustainable industrial development Consumer choice editing Sustainable tourism Eco-system health Sustainable supply chain Sustainable value chain Urbanization and cities Eco-innovation Low carbon community Regional capability & capacity empowerment</p>	<p>3. Methodologies Extended environmental input-output Industrial and urban symbiosis Emissions, GHG, and climate change Mitigation Trade and flow embodied impacts Energy and footprint methodology Multi-scale metabolism Material flows and stock Process integration & P-Graph</p> <p>4. Trends Industry 4.0 Society 5.0 Industry 3.5 Digital world (Big data, Block chain) Green financing FEW Nexus (food waste) Carbon capture and 3R Marine (plastic) debris Sectoral & SMEs concerns Disruptive technologies for SCP</p>
